single jersey with yarn - 100% pre-shrunk ring-spun cotton

150 g/m²

The SLUB yarn produces an extremely modern visual effect, thanks to the irregular diameter of the yarn.

DISCOVER THE OTHER OUTSTANDING STYLES OF OUR SLUB EDITION:

B&C Mick Slub /men & B&C Blondie Slub /women (more information p.16 & p.17)

SINGLE JERSEY 100% COTTON WITH YARN

has printing properties that are as good as 100% single jersey ring-spun cotton.

B&C Patti Slub /women (more information p.18)

Unwashed since it could damage the fibres, the fabric creates a "vintage" look for a truly up-to-date garment. This yarn produces a vintage surface finish without sacrificing the quality of the fabric.

the biosfair collection

single jersey
100% Fairtrade and Organic certified combed cotton

160 g/m²

B&C BIOSFAIR COLLECTION is a sustainable collection 100% cotton - FAIRTRADE and ORGANIC certified.

At B&C we believe in BIOEQUITABILITY

This notion combines the Human respect with the protection of the environment. This is the only solution ensuring both economic development and total respect for the environment and biodiversity.

BIOEQUITABILITY IS...

1. FAIRTRADE - human respect -

The Fairtrade Certification Mark is your independent guarantee that the cotton in this product has been certified in accordance with international Fairtrade Standards. The purchase of this product made with Fairtrade Certified Cotton enables the improvement of working and living conditions of Cotton Producers in developing countries and encourages environmental protection.

2. ORGANIC - environmentally friendly -

Our organic cotton is certified by the EKO label. Organic Cotton is a cotton that respects the environment and is grown without using pesticides or artificial fertilisers. This practice is healthier for cottongrowers, better for nature and, what's more, results in a fabric that is wonderfully soft and natural to wear.

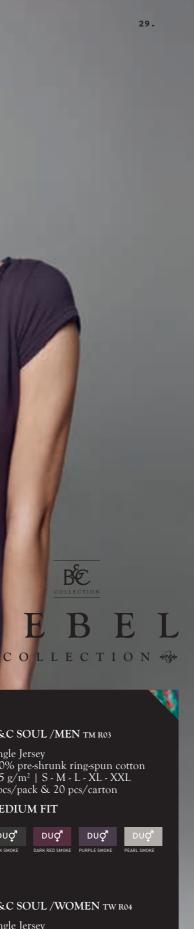

THE BIOSFAIR COLLECTION ALSO OFFERS 2 POLO SHIRTS: B&C BIOSFAIR POLO /MEN AND B&C BIOSFAIR POLO /WOMEN (SEE THE B&C POLO SHIRT CATALOGUE)

Amongst other customized details, the collar has been distorted from its original V-neck shape. The men's version has a re-cut raw edged neck line and there's intricate lacing that criss-cross the bust on the women's version, creating a necklace effect.

T-shirts fabrics

Discover the wonderful fabrics in our range of B&C t-shirts. From Single Jersey 100% cotton to 2X2 Rib, we offer the largest top quality range available on the promotional market. Easy to print, comfortable to wear, soft to touch yet strong, those are the main qualities of our fabrics. Enjoy our complete range, we have created it for you.

SINGLE JERSEY

1/ 100% RING-SPUN COTTON

The Single Jersey provides a dedicated area for perfect printing. B&C uses 100% tight-weave cotton for the Single Jersey. Combined with use of Ring-Spun cotton, i.e. spun from long, continuous fibres, this tight, extremely flat surface and has no fluff, giving enhanced decoration and a soft, comfortable material. Lastly, the compacted 100% cotton Single Jersey gives a very low shrinkage level.

2/ COMBED COTTON/ELASTAN

By adding elastane to cotton, the fabric acquires some remarkable properties: excellent elasticity for maximum comfort, a garment that adjusts perfectly to body shape, and will not lose its shape with repeated stretching (shape retention). With regard to the process of knitting this material, B&C chose the best, most modern technology available, the full feeder. This technique allows the even distribution of elastane over the entire surface of the material. This fabric combines comfort and an extra-flat surface as even as the 100% Ring-Spun cotton Single Jersey. The material is also fluid and agreeable to the touch; its softness is increased with the use of combed cotton. And for you, it's the ideal material with perfect print results.

3/ 100% COTTON SLUB YARN

This Single Jersey made of 100% Slub Yarn cotton has exactly the same printing characteristics and high quality as the 100% Ring-Spun cotton Single Jersey. The Slub spin also brings a contemporary look with its irregular yarn thickness. With no washing that could harm the fibre, the fabric has a "Vintage" appearance, but in a contemporary version.

4/ 100% RING-SPUN FAIRTRADE AND ORGANIC CERTIFIED COMBED COTTON

This fabric is made of 100% Fairtrade certified cotton. It guarantees that the product has been certified in accordance with international Fairtrade Standards. This fabric is also 100% Organic certified cotton, meaning that the cotton has been grown without the use of pesticides or synthetic fertilisers.

This Single Jersey has exactly the same printing characteristics and high quality as the Ring-Spun cotton Single Jersey.

To sum up, this fabric combines the high printing characteristic of a 100% cotton Single Jersey with the bioequitability characteristics of its yarn.

5/ POLYCOTTON

A blended fabric made of 65% polyester and 35% cotton. This fabric combines the qualities of both cotton and polyester. Keeping the softness and comfort of cotton, and adding the washing and wearing qualities of polyester, such as strength, greater stain- resistance, wrinkle-resistance, colour fastness, faster drying times and flashy neon shades.

This fabric has the same printing characteristics as 100% Ring-Spun cotton Single Jersey and allows use of the sublimation printing technique as it contains polyester.

6/ POLYCOTTON COLOURFUL HEATHER FABRIC [DELUXE VERSION]

Combined with use of Ring-Spun cotton, the surface is extremely flat and without fluff. Typically only offered by retail brands, B&C innovates and makes the heather in colour available to the promotional market with the best printing quality. Its wearer will feel an incredible softness and fluidity on its skin. This fabric offers the perfect support to magnify your decoration.

7/ 1X1 RIB 100% COTTON

The 1X1 Rib is highly extendable, giving the option of making cuts close to the body, combined with outstanding comfort. A true classic, this material will take your printing or embroidery perfectly.

8/ 2X2 RIB 100% COMBED COTTON

The width of the hollow between each rib is equal to the width of the rib itself, resulting in a very regular fabric. It is extendable in width as a diagonal makes it possible to produce cuts close to the body while giving complete freedom of movement. Lastly, it's a material rated very highly in the retail trade. Set yourself apart with it.

FAIR WEAR

Since 2009, B&C is member of the Fair Wear Foundation (FWF), which supports good labor conditions in garment production worldwide. The compliance program for The B&C's

supply chain is based on the FWF social compliance guidelines on how to best evaluate and monitor working conditions and their improvement in factories where The B&C's goods are produced.

OEKO TEX

The B&C brand is Oeko Tex-certified for its T-shirts, polo shirts, shirts and sweatshirts.

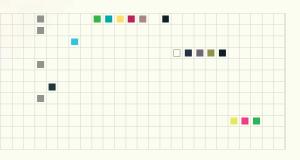

FAIRTRADE & EKO

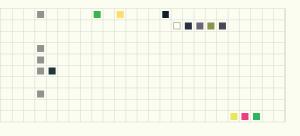

B&C believes in BIOEQUITABILITY. Therefore, we have developed 4 styles made of 100% FAIRTRADE and ORGANIC certified cotton.
