single jersey with yarn - 100% pre-shrunk ring-spun cotton

150 g/m²

B&C Blondie Slub /women &
B&C Mick Slub /men

The SLUB yarn produces an extremely modern visual effect, thanks to the irregular diameter of the yarn.

SINGLE JERSEY 100% COTTON WITH YARN

has printing properties that are as good as 100% single jersey ring-spun cotton.

Unwashed since it could damage the fibres, the fabric creates a "vintage" look for a truly up-to-date garment. This yarn produces a vintage surface finish without sacrificing the quality of the fabric.

Biosfair
CLEVER COLLECTION

**B&C BIOSFAIR COLLECTION is a sustainable collection
100% cotton - FAIRTRADE and ORGANIC certified.**

At B&C we believe in BIOEQUITABILITY

This notion combines the Human respect with the protection of the environment. This is the only solution ensuring both economic development and total respect for the environment and biodiversity.

BIOEQUITABILITY IS...

1. FAIRTRADE - *human respect* -

The Fairtrade Certification Mark is your independent guarantee that the cotton in this product has been certified in accordance with international Fairtrade Standards. The purchase of this product made with Fairtrade Certified Cotton enables the improvement of working and living conditions of Cotton Producers in developing countries and encourages environmental protection.

2. ORGANIC - *environmentally friendly* -

Our organic cotton is certified by the EKO label. Organic Cotton is a cotton that respects the environment and is grown without using pesticides or artificial fertilisers. This practice is healthier for cotton-growers, better for nature and, what's more, results in a fabric that is wonderfully soft and natural to wear.

Amongst other customized details, the collar has been distorted from its original V-neck shape. The men's version has a re-cut raw edged neck line and there's intricate lacing that criss-cross the bust on the women's version, creating a necklace effect.

The characteristics of the treatments make each garment original and unique.
Variations should be considered as a sign of quality.

T-shirts fabrics

Discover the wonderful fabrics in our range of B&C t-shirts. From Single Jersey 100% cotton to 2X2 Rib, we offer the largest top quality range available on the promotional market.

Easy to print, comfortable to wear, soft to touch yet strong, those are the main qualities of our fabrics.

Enjoy our complete range, we have created it for you.

SINGLE JERSEY

1/ 100% RING-SPUN COTTON

The Single Jersey provides a dedicated area for perfect printing. B&C uses 100% tight-weave cotton for the Single Jersey. Combined with use of Ring-Spun cotton, i.e. spun from long, continuous fibres, this tight, extremely flat surface and has no fluff, giving enhanced decoration and a soft, comfortable material. Lastly, the compacted 100% cotton Single Jersey gives a very low shrinkage level.

2/ COMBED COTTON/ELASTAN

By adding elastane to cotton, the fabric acquires some remarkable properties: excellent elasticity for maximum comfort, a garment that adjusts perfectly to body shape, and will not lose its shape with repeated stretching (shape retention). With regard to the process of knitting this material, B&C chose the best, most modern technology available, the full feeder. This technique allows the even distribution of elastane over the entire surface of the material. This fabric combines comfort and an extra-flat surface as even as the 100% Ring-Spun cotton Single Jersey. The material is also fluid and agreeable to the touch; its softness is increased with the use of combed cotton. And for you, it's the ideal material with perfect print results.

3/ 100% COTTON SLUB YARN

This Single Jersey made of 100% Slub Yarn cotton has exactly the same printing characteristics and high quality as the 100% Ring-Spun cotton Single Jersey. The Slub spin also brings a contemporary look with its irregular yarn thickness. With no washing that could harm the fibre, the fabric has a "Vintage" appearance, but in a contemporary version.

4/ 100% RING-SPUN FAIRTRADE AND ORGANIC CERTIFIED COMBED COTTON

This fabric is made of 100% Fairtrade certified cotton. It guarantees that the product has been certified in accordance with international Fairtrade Standards. This fabric is also 100% Organic certified cotton, meaning that the cotton has been grown without the use of pesticides or synthetic fertilisers.

This Single Jersey has exactly the same printing characteristics and high quality as the Ring-Spun cotton Single Jersey.

To sum up, this fabric combines the high printing characteristic of a 100% cotton Single Jersey with the bioequitability characteristics of its yarn.

5/ POLYCOTTON

A blended fabric made of 65% polyester and 35% cotton. This fabric combines the qualities of both cotton and polyester. Keeping the softness and comfort of cotton, and adding the washing and wearing qualities of polyester, such as strength, greater stain-resistance, wrinkle-resistance, colour fastness, faster drying times and flashy neon shades.

This fabric has the same printing characteristics as 100% Ring-Spun cotton Single Jersey and allows use of the sublimation printing technique as it contains polyester.

6/ POLYCOTTON COLOURFUL HEATHER FABRIC [DELUXE VERSION]

Combined with use of Ring-Spun cotton, the surface is extremely flat and without fluff. Typically only offered by retail brands, B&C innovates and makes the heather in colour available to the promotional market with the best printing quality. Its wearer will feel an incredible softness and fluidity on its skin. This fabric offers the perfect support to magnify your decoration.

7/ 1X1 RIB 100% COTTON

The 1X1 Rib is highly extendable, giving the option of making cuts close to the body, combined with outstanding comfort. A true classic, this material will take your printing or embroidery perfectly.

8/ 2X2 RIB 100% COMBED COTTON

The width of the hollow between each rib is equal to the width of the rib itself, resulting in a very regular fabric. It is extendable in width as a diagonal makes it possible to produce cuts close to the body while giving complete freedom of movement. Lastly, it's a material rated very highly in the retail trade. Set yourself apart with it.

THE SHIRT CULTURE
BE INSPIRED

WHAT THE *21st* century 'SHIRTED' MAN OR WOMAN LOOKS LIKE?

Clothes make the person. We instinctively tend to trust those who are well-groomed more than those who are not. But good looks can also work the other way around because once we feel attractive, we feel confident and in control.

To get that feeling, there are a lot of details to get right while wearing a shirt. B&C has integrated them all. B&C-The Shirt Culture has emerged from this thinking and it results a collection of 20 well-crafted and correctly-balanced corporate shirts for men and women, in long sleeve and short sleeve versions.

Let us help you on your path to stylishness. We have collected in this guide the best and most fashionable advices as well as the most important genuine codes of a shirt, to guide you to choose the right one and to feel great. It will become your guide to develop a clearer, stronger and more confident sense of shirt style. Once you have it, proceed to our "lookbook" where you will find the whole collection in detail, shirt by shirt. Pick your perfect shirt, apply the tips, add the codes of elegance to your outfit and enjoy being well-dressed everyday.

SO NOW, LADIES AND GENTLEMEN,
LET'S GET DRESSED WITH B&C!

THERE ARE SEVERAL SIGNS OF A QUALITY DRESS SHIRT. SOME, SUCH AS FABRIC, FIT, COLLAR OR CUFFS, ARE INSTANTLY OBVIOUS. OTHERS, LIKE STITCHING OR BUTTONS, TAKE A MINUTE TO APPRECIATE. AND OTHERS, LIKE INSIDE FINISHING OR COMFORT, ARE APPARENT ONLY TO THE WEARER. BUT EACH OF THOSE CHARACTERISTICS WILL ALLOW THE WEARER TO ENHANCE THEIR SELF-CONFIDENCE.

TO MAKE EACH STYLE OF B&C-THE SHIRT CULTURE AN EXERCISE IN PERFECTION, B&C HAS ESTABLISHED THE KEY CODES OF THE FAULTLESS SHIRT. THE ESSENTIAL AND TIMELESS SHIRT CODES HAVE BEEN BOOSTED WITH CONTEMPORARY CUTS, LOOKS AND DETAILS OR B&C EXCLUSIVE CODES OF ELEGANCE.

1 CONTEMPORARY FIT

Through this bright new collection, B&C offers the right balance between a contemporary fit and the corporate requirements in terms of measurement: regular fit, adjusted fit, medium fit and fitted. Each wearer will show an up-to-date silhouette without compromising comfort.

2 COLLAR

The collar is the most distinguishing and fashion-sensitive feature of a shirt. All B&C shirt collars are made of 3 layers to make them keep their shape: 2 layers of fabric and between them an interlining. This is one of B&C's criteria for excellence. So are the non-removable bones integrated in the collar to make sure you will never lose them.

In terms of shapes, there are zillions of collars and you can easily get confused by the choice. Only few are right. Discover them through this B&C Shirt Style Manual.

3 CUFFS

Cuffs are one of the key features in not only determining how dressy a shirt is, but how to distinguish personal style. To be sure to go for a faultless choice you only need to remember 3 shapes: the round-shaped exclusively for Oxford cuts, the straight-shaped for a more sophisticated silhouette and the angular-shaped cuffs for a contemporary corporate style. The versatility of your cuffs is also essential. B&C long sleeve shirts have convertible 2-button cuffs with an additional button-hole to transform them into French cuff (Kissing or Barrel-style).

4 OUR SYNONYM OF QUALITY: 6 STITCHES PER CENTIMETER

Stitches must be discreet and fine. To appreciate the fineness of it, you have to count the number of stitches per centimeter. The more you have the better it is. The B&C shirts boast 6 stitches per centimeter, as you cannot

of elegance and improves durability by choosing high quality polyester mother-of-pearl buttons. They are intensive wash resistant, which make B&C shirts not only stylish but also for everyday use. B&C respects a second essential rule of quality for buttons. If you look at their stitches, you'll see they are cross-stitched. In addition to offering a qualitative perception to your shirt, it ensures you will never lose a button.

6 SMART LOCATED SPARE BUTTONS

Each shirt comes with spare buttons sewn onto the button placket. This way, you will be certain not to snag them when ironing. Your shirt will stay perfect.

7 HORIZONTAL LAST BUTTONHOLE

One more rule to recognize a high-quality shirt. The last buttonhole is sewn horizontally. Because horizontal buttonholes take horizontal stress with less deforming of the buttonhole shape and offer a reduced likelihood of the button pulling out from this stress than that of vertical ones.

8 INVISIBLE BUT CRUCIAL QUALITY: THE LAP SEAMS

Lap seams are inside the shirt but they play an important role: comfort enhancement and high-end quality perception. Each B&C man shirt has this deluxe finishing providing quality and a feeling of comfort to the wearer. One more step to take you in the direction of self-confidence.

THE 08 GENUINE CODES OF ELEGANCE

details that make the difference

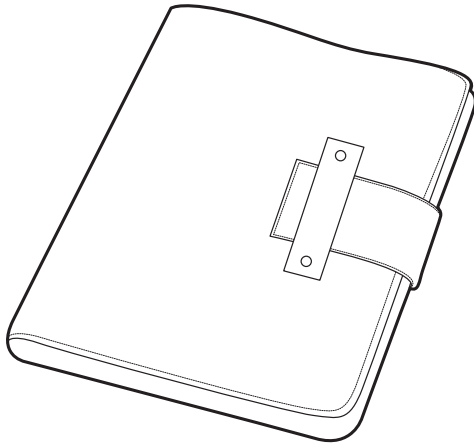

accurately achieve more than 6 or 7. Through this, the quality perception of the shirt is enhanced and at the same time, also the wearer's confidence.

5 STYLISH & DURABLE BUTTONS

The rule of top-quality shirts is mother-of-pearl buttons. B&C follows this code

1 TIP IS A PORTFOLIO A COOL ACCESSORY?

A portfolio is a slim document wallet, without any handles and the size of a sheet of A4 or A5 paper, which you slip casually under your arm. In short, it's a document case and, this winter, it will be a must. It should always be leather.

3 TIP ADOPT THE SLIM TIE

A dark, slim tie will instantly give any ensemble a younger, cooler feel. And unlike wider ties, it looks as good with a jean jacket as with a suit jacket.

2 TIP CAN YOU ROLL UP YOUR JACKET SLEEVES?

Let's be clear,
for men, the answer is NO: it ruins the jacket!
As for women, rolling up your sleeves is stylish.

4 TIP THE GOLDEN RULE of style

- > If the bottom (trousers, skirt) is wide, the top should be tight.
- > If the bottom is narrow, the top should be loose.

7 ESSENTIAL TIPS ON HOW TO BECOME THE PERFECT SHIRT WEARER

You need something in your look that stands out the crowd. Could be a pocket square, could be a necktie or could be just the good fit.

The point is: the details make a big difference. Here is how to do it well, without overdoing it.

5 TIP SHOULD YOU WASH A NEW SHIRT?

Of course! In store, shirts are folded in four, and are therefore creased all over. Wearing them like this should be a criminal offence. What's more, new shirt fabric often have a finish. It will let more air through (and deal better with perspiration) once it has been washed.

6 TIP BUNDLE UP YOUR TIE

Silk isn't the only tie option anymore. Designers are doing tweeds and heavy wools. Your shirt deserves a change. And your neck too.

7 TIP

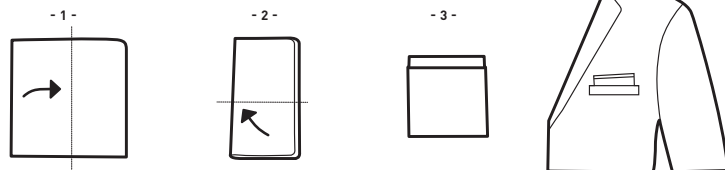

YOUR POCKET SHOULD BE PERFECT!

There are almost as many different ways of folding a pocket square as there are colours.

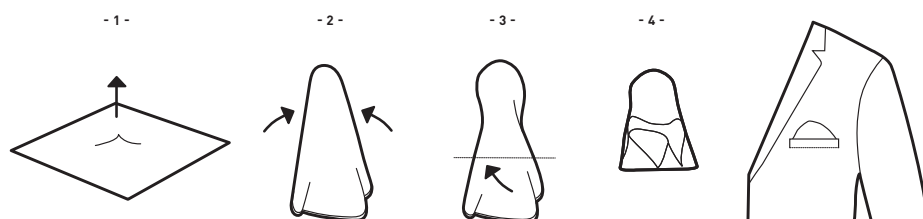

Like a signature scent, rather than always changing, you should choose the one that pleases you best and make it your mark.

FABRICS

*Appearance,
comfort,
ease of care*

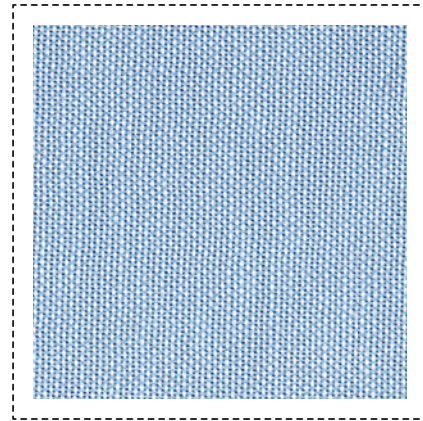

A shirt is in direct contact with your skin for more than 8 hours everyday; this is why we can't compromise on quality. Choosing the finest fabric is the starting point for what makes our shirts special. We have meticulously and carefully selected 5 fabrics supporting the creation of highly qualitative and contemporary shirts. The unique objective of this is to "enhance wearer self-confidence" activated by perfect appearance, comfort and everyday use ease of care*.

* To facilitate the wearer's life, all fabrics are easy care treated.

OXFORD

OXFORD FABRIC

Oxford fabric is one of the most popular fabrics for corporate shirts. Oxford is an emblematic fabric due to its honeycomb construction, where warp and weft threads cross each other in pairs. Made of 70% cotton and 30% polyester, this cotton rich blend offers the B&C Oxford shirt a combination of quality, comfort and durability.

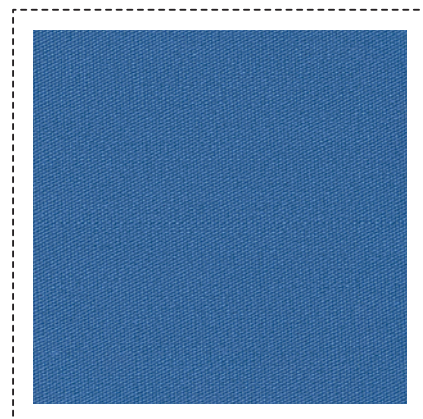

IT IS 60° WASHABLE AND EASY CARE TREATED.

POPLIN

POPLIN 100% COTTON FABRIC

The principle: a fine yarn running one-way with a thicker one interweaving it. The B&C poplin made of 100% cotton has a fine quality bringing pure elegance to the B&C shirts.

Twill

Twill Fabric

The twill is one of the basic weaves easy to identify thanks to its diagonal lines. B&C twill fabric, made of 100% combed cotton is very resistant even if pure cotton, this is thanks to the fabric's construction. To add more comfort and softness, B&C offers peached soft-to-touch finishing. The result: shirts are qualitative, durable and highly comfortable.

QUALITY COMFORT EASE OF CARE

Poplin is the most commonly used weaving fabric type for shirts. It is renowned for its silky surface, its pure appearance and the comfort it brings. Here are the 3 poplin types carefully chosen to meet the corporate high demand for quality.

POLYCOTTON POPLIN FABRIC

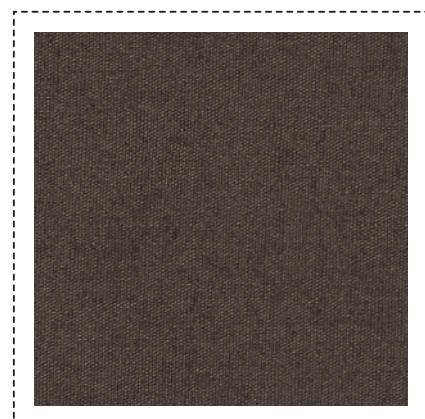

The principle is simple. When another fibre is woven in with the cotton, you benefit from both fibres: here, the polyester will bring both durability and resistance. Made of 65% polyester and 35% cotton, this blend makes the B&C shirts wrinkle resistant, durable and with high colour fastness.

POPLIN COTTON STRETCH FABRIC

B&C poplin cotton elastane is made of 97% combed cotton and 3% elastane creating stretch. This specific combination allows B&C to create a line of shirts with more fitted cuts without compromising comfort.

COLLARS

THERE ARE ZILLION OF COLLARS BUT YOU ONLY NEED TO KNOW 3: THE BUTTON-DOWN COLLAR, EXCLUSIVELY DEDICATED TO OXFORD STYLES, THE CUT-AWAY COLLAR FOR A MORE CONTEMPORARY ELEGANT LOOK AND THE SEMI CUT-AWAY COLLAR A MORE TRADITIONAL VARIATION OF THE CUT-AWAY COLLAR.

MEN

BUTTON-DOWN COLLAR

Buttons were added to traditional collars by polo players to stop their collars flapping in their faces. Off the polo field the button-down collar helps to hold ties in place and to keep the collar neat when worn under blazers and knits.

1-BUTTON CUT-AWAY COLLAR

It adds a dressier touch to a suit. It looks great with a button or two undone under a sharp blazer. If you opt for a tie, this collar will subtly draw attention to it.

2-BUTTONS CUT-AWAY COLLAR

This is a 'must have' for any trendy shirt wardrobe. This collar can also be worn with a tuxedo as it allows the entire bowtie to be visible. It has a higher collar band due to the double buttons for closing it.

- B&C BLACK TIE LSL /MEN

SEMI CUT-AWAY COLLAR

It is a more conventional variation of the Cut-away collar. Also known as the classic, it is timelessly elegant. It makes any tie stand "proud" and gives you a cool and confident look, whether your top button is done up or not.

TIP ♀

ACCESSORISING A WOMAN SHIRT

A necklace is the perfect accompaniment. It could be a simple chain through to a bold statement piece. For a variation try a floral scarf instead of a tie. A ribbon wrapped around and tied either in a simple knot or a bow is also an effective DIY accessory.

TIP ♂

COLLAR FORMALITY

The stiffer the collar, the more formal the intentions of the wearer. The more open the collar's points, the dressier the presentation.

CUFFS

CHOOSING THE FINEST FABRIC IS ONLY THE STARTING POINT FOR WHAT MAKES OUR SHIRTS SPECIAL. THE CARE AND ATTENTION THAT GOES INTO EVERY STITCH IS MATCHED BY B&C CONTINUALLY STRIVING FOR PERFECTION IN THE CUTTING AND DESIGN OF OUR SHIRTS. CUFFS ARE ONE OF THE KEY FEATURES IN NOT ONLY DETERMINING HOW DRESSY A SHIRT IS, BUT HOW TO DISTINGUISH PERSONAL STYLES. TO BE SURE TO HAVE A FAULTLESS CHOICE YOU ONLY NEED TO REMEMBER 3 SHAPES : ROUNDED, ANGULAR AND STRAIGHT.

LONG SLEEVES

B&C long sleeved shirts have convertible 2-button cuffs with an additional buttonhole to transform them into French cuff (Kissing or Barrel-style).

ROUNDED CUFF CORNERS

Rounded cuff corners and mitred-shape gauntlets follow the traditions of the original Oxford shirt.

THE SHIRT CULTURE

BE INSPIRED

Everybody needs a classic Oxford shirt in its wardrobe. This shirt has been created with the greatest attention to detail in the best sartorial tradition, keeping alive the codes of the Oxford shirt.

Its fabric, oxford construction, is soft and comfortable. The B&C Oxford is also effortless to maintain thanks to the easy care treatment and is durable too with its polycotton composition.

The most natural form of the Oxford is the button-down collar which is a rule that B&C has respected for the masculine version. Even further, the gauntlets are mitred for a better harmony with the collar and bottom hem side reinforcements.

IS AS SMART AS ALL OF US"

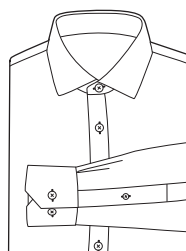

JAPANESE PROVERB

As mentioned before, at B&C you will find shirts that have been constructed with similar attention to detail that you would expect in bespoke tailoring. The B&C Smart shirt is no exception to the rule: it has a modern fit, qualitative detailing and has a correctly balanced polycotton composition.

Its perfect blend of combed cotton and soft polyester allows comfort, softness and enhanced durability. The B&C Smart shirt is intensive wash-resistant and easy to maintain thanks to its easy care treatment. Be smart, thanks to this double advantage (style and resistance), it delivers the wearer an absolute self-confidence feeling.

HOW TO RECOGNIZE THE B&C SMART SHIRT?

- › Cut-away collar
- › Angular cuffs & square-shaped gauntlets*
- › Easy care
- › Washable at 50°

**Thinner gauntlets
for her*

The principle of the polycotton poplin fabric is simple. When another fibre is woven in with the cotton, you benefit from both fibres. Here, the polyester brings extra resistance.

THE SHIRT CULTURE

BE INSPIRED

The B&C Black Tie shirt is the epitome of business chic with clean lines and a sleek fit. Thanks to additional elastane, this poplin shirt has a slim and sophisticated fit for the polished professional without sacrificing comfort.

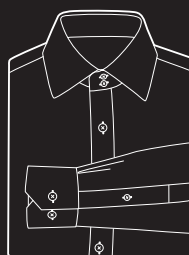

To bring to perfection the men's version (long-sleeved model), the B&C Black Tie LSL features a modern and stylish two-button cut-away collar. Thanks to its slightly shorter body length you can wear it tucked in or out.

On the women's side, this modern shirt is impeccably cut and crafted, creating a feminine and flirty silhouette. Slightly shorter length, the curved seams enhance this slimming wardrobe essential. As for men, the long sleeved version highlights contemporary convertible angular cuffs.

This modern and chic fit is absolutely the most perfect addition to any business woman or man's wardrobe.

THE SHIRT CULTURE

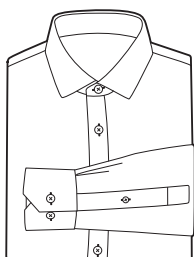

BE INSPIRED

The B&C Sharp shirt is very durable even with its composition of 100% pure cotton. Its secret: twill fabric construction. This fabric is a shimmery diagonal weave, which gives a rich texture to this shirt without sacrificing formality. To add comfort, we offer a soft-touch peached finish. The B&C Sharp also features high-end quality manufacturing and offers a perfectly up-to-date look. Once again, self-confidence of the wearer is the key objective of our inspiration. Modern, comfortable and durable, this shirt is your best choice whether your work is indoors or outdoors.

HOW TO RECOGNIZE THE B&C SHARP SHIRT?

- › Semi cut-away collar
- › Angular cuffs & square-shaped gauntlets*
- › Easy care
- › Washable at 50°

*Thinner gauntlets for her

Made of 100% combed cotton, B&C twill fabric is very resistant even if pure cotton, thanks to the fabric's construction. Its peached soft-to-touch finish adds captivating softness to the style.

PST

*perfect sweat
technology*

We have developed an exclusive knit for our sweatshirts: the Perfect Sweat Technology (PST). The high quality of PST stems from its composition. Polyester is used discreetly by incorporating a 100% polyester filament into the cotton knit. The PST offers advantages such as excellent resistance to washing, a mat appearance for a sublimated design and perfect printability thanks to the 100% cotton on the outside. It also provides maximum comfort when you wear our sweatshirts.

QUALITY IS A MUST FOR B&C

We have developed an exclusive knit for our sweatshirts: the Perfect Sweat Technology (PST). The high quality of PST stems from its composition. Polyester is used discreetly by incorporating a 100% polyester filament into the cotton knit. The PST offers advantages such as excellent resistance to washing, a mat appearance for a sublimated design and perfect printability thanks to the 100% cotton on the outside. It also provides maximum comfort when you wear our sweatshirts.

B&C WINDPROTEK

B&C LIGHT PACK CONCEPT

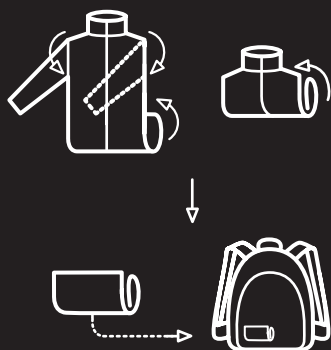

WHEN WEIGHT AND SPACE ARE CRITICAL

People are constantly in motion, going from outside to inside and from inside to outside. When going out, the weather can change quickly and dramatically, exposing you alone to the elements. To be protected in every situation, weight and space are often an issue.

B&C LIGHT PACK CONCEPT

PROTECTION + LIGHT + COMPACT =
MINIMUM VITAL SPACE FOR MAXIMUM
PROTECTION AGAINST RAIN AND WIND

B&C COOLSTAR DUO

Minimum vital space, maximum warmth.

Created to be a “**Light Pack Concept**” style, the engineered fleeces **B&C Coolstar /men & B&C Coolstar /women** feature all the advantages: **high insulation, light, compact and packable.**

This Duo is made of **ultra light high performance** micro-fabric to feel warm everywhere and in style. The ergonomic body and sleeves shapes allow real freedom of movement. In terms of look, this full-zip fleece duo permits versatile coordination.

You have plenty of styles options weather you go for the layered look, or wear them as a simple outer jacket.

For more information see p.44

DUO
CONCEPT

B&C DYNAMIC

Minimal weight, minimal space.

To deal comfortably with weather versatility, you need a light, compact and packable solution. You need the **B&C Dynamic**. Super lightweight, wind-resitant, water-repellent, packable, made of noiseless fabric, media-player compatible and breathable, this windbreaker jacket fits easily into any bag.

You can have it when you need it and can pack it in its own pocket when you don't.

For more information see p.35

B&C SMART PACK SYSTEM

The **B&C SMART PACK SYSTEM** is a technology that combines properties allowing the product to have **maximum insulation** while still being ergonomic for a **minimum weight**. The compact design contributes to a packable solution that takes a **minimum space**.

B&C X-LITE SOFTSHELL DUO

Superior fabric and advanced technology.

Engineered for superior protection against wind and rain (critical taped seams), the B&C X-lite Softshell Jacket allows you to comfortably face the weather. Its ergonomic cut, helped by 4-way stretch structure, actively supports freedom of movement while the X-lite fabric lightweight and breathability.

The B&C X-lite is light, packs small, and keeps you dry. Ideal for urban active life where weight and space are crucial.

JACKET COLLECTION

CLARITY / SIMPLICITY / PERFECTION

If you're seeking warmth and protection from the wind and rain, but also style, our amazing choice of fabrics and designs offer you jackets you can wear whatever the weather and on any occasion.

CLARITY

B&C's Jacket collection shows clearly-defined market segmentation, based on the jacket's degree of weather protection. You'll be able to choose your model according to weather conditions (the type of protection you need, likewise the choice of model).

This collection offers the following model types: lightweight jackets without lining, lightweight jackets with lining, medium weight jackets, heavy weight jackets (parkas and down jackets), technical jackets and bodywarmers.

SIMPLICITY

B&C's jacket collection comprises "must-haves" to meet the demands of the promotional market in each segment. The greater part of our range is based on the B&C Duo Concept, which offers a different version of any given model, one for women and one for men.

PERFECTION

Perfection in terms of the quality and excellence of the fabrics along with the passion for design and meticulous attention to the smallest detail. Needless to say, B&C's jacket collection also meets the particular demands of the market in terms of personalisation.

Take a look at all the B&C jacket collection to realise the wide range of activities in which our products excel, and to find out more about our creations and novel garments.

B&C SOFTSHELLS

SUPERIOR FABRICS AND ADVANCED TECHNOLOGY

THE MOST METICULOUS ATTENTION TO THE SMALLEST DETAILS

Softshell material combines weather **protection** and **breathability**.

The B&C Softshell line uses **cutting-edge technology** to offer maximum **comfort**.

2 categories of softshells allow you to negotiate with uncertain weather: the **B&C X-Lite Softshells** and the **B&C Hooded Softshells**.

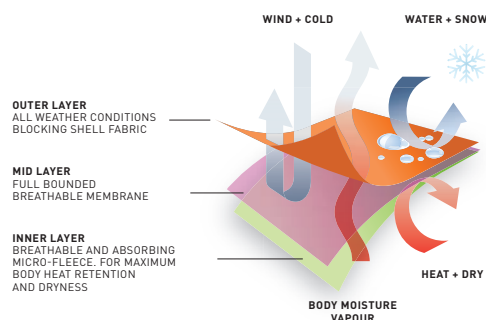

THE B&C HOODED SOFTSHELL LINE

ALWAYS A STEP AHEAD

B&C Hooded Softshell line uses yarn, fibre and cutting-edge technology for maximum comfort, whatever the weather. Thanks to the materials and designs used, B&C's Hooded Softshell line enriches the promotional clothing market with jackets of excellent quality, since the product's high quality ensures impressive **durability, performance** and **comfort**, even when the weather is at its worst. Moreover, it is fitted with an **adjustable hood**, allowing total freedom of movement and full peripheral vision.

DUO
CONCEPT

B&C HOODED SOFTSHELL DUO, B&C HOODED SOFTSHELL /KIDS, B&C HOODED SOFTSHELL GILET DUO (SOFTSHELL BODYWARMER)

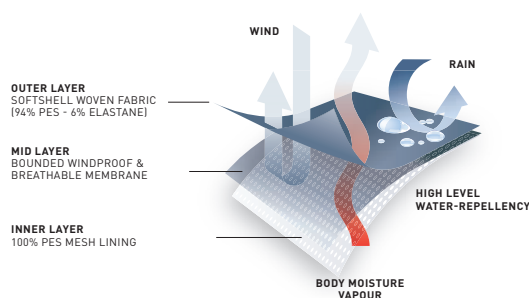

THE B&C X-LITE SOFTSHELL DUO

Highly waterproof, extremely breathable, windproof and with high levels of water-repellency, these are the key features of this softshell jacket, that also offers you a light pack protection with the exclusive **B&C Light Pack Concept** (see p.10).

X-Lite Softshell 3-layer fabric consists of outer and inner fabric with a bounded membrane between them. The membrane blocks wind and whisks body moisture vapour away to the outer layer where it evaporates quickly regulating body temperature.

B&C DYNAMIC

MINIMAL WEIGHT, MINIMAL SPACE

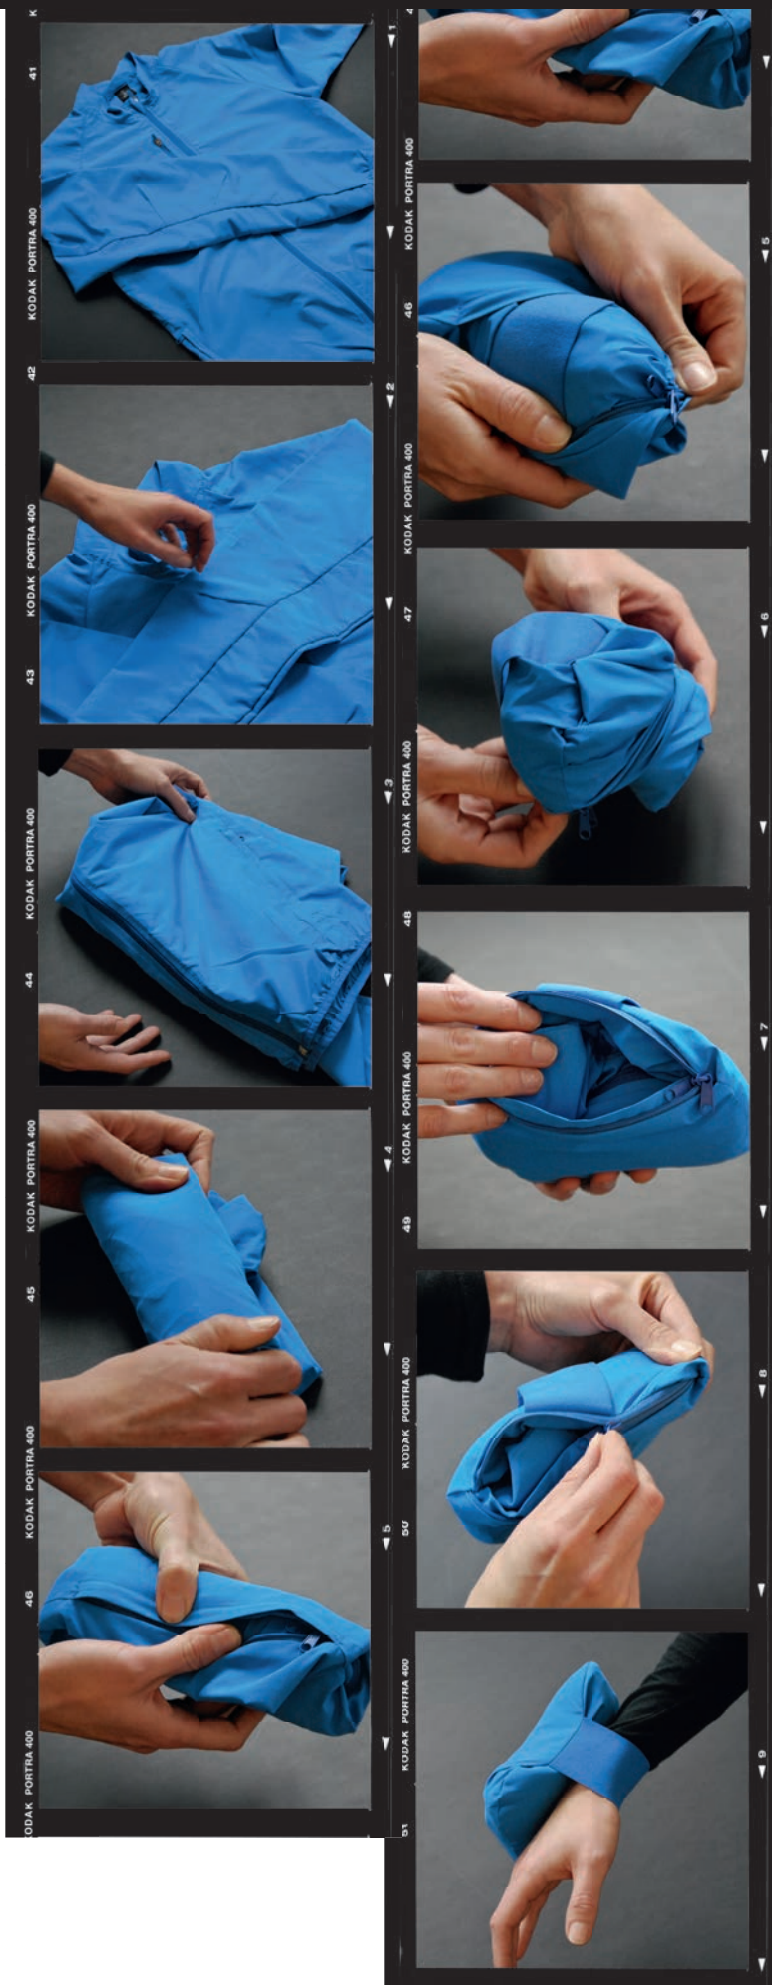

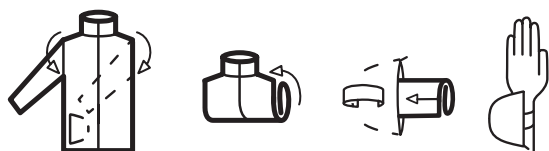

To deal comfortably with weather versatility, you need a light, compact and packable solution. You need the **B&C Dynamic**.

Super lightweight, wind-resistant, water-repellent, packable, made of noiseless fabric, media-player compatible and breathable, this windbreaker jacket fits easily into any bag.

You can have it when you need it and can pack it in its own pocket when you don't.

B&C SMART PACK SYSTEM

The B&C SMART PACK system is a technology that combines properties allowing the product to have maximum insulation while still being ergonomic for a minimum weight. The compact design contributes to a packable solution that takes a minimum space.
